

TOP SECRET**WORKING PAPER**IEG/OD-311/70
9 September 1970

MEMORANDUM FOR: Director, NPIC

SUBJECT : Visit of National Indications Center (NIC) Personnel to
NPIC on ~~21~~ September 1970 (1300 - 1600 hours)

X1 1. Attached sheet is the planned itinerary for visit of seven (7) NIC personnel to NPIC and IEG/NPIC on 14 September 1970. They will be escorted by undersigned to your office at 1530. It is planned that they will depart for the Pentagon around 1600 in order to avoid the afternoon traffic.

2. Purpose of the visit is two-fold:

a. First, there is a continuing desire by NPIC and NIC for periodic face-to-face discussions relative to areas of the world of current interest such as Middle East, Sino-Soviet Border, new order of battle, etc., as applied to warnings/indications (W/I). You will recall that a similar visit was made to NPIC in June, at which time the Director, NIC, and five analysts were highly impressed and very grateful for the face-to-face contacts with IEG personnel and especially grateful for your expressions. Our exploitation and reporting are currently geared to the W/I arena, and a great many of our reports are directly applicable to the work of NIC in their production of the weekly WATCH report.

b. Secondly, the visit is part of NPIC's continuing effort to enhance the overall joint NPIC/NIC relationship in a positive manner. In this connection, it would be most appropriate, I believe, for you to again tell these analysts and WATCH officers, in your own fine style, of our exploitation for the W/I cause and pass along your assessment of "the future" from on-coming collection systems as applied to W/I intelligence derived from photography.
